Klarna

# Senior Offensive Security Engineer - Penetration Tester

Engineering - Engineering · Milan · Full-time · €63,236 EUR - €70,824 EUR

Application

**What you will do**

As a Senior Offensive Security Engineer at Klarna, you will be at the forefront of safeguarding our digital infrastructure and customer data. This position demands a blend of hacking skills, creativity, and a deep understanding of cyber threats. You will simulate sophisticated cyber attacks to identify vulnerabilities, ensuring Klarna's resilience against real-world threats.

- Conduct white-box and black-box penetration testing against internal and public-facing applications and assets.
- Manage, triage, and investigate Bug Bounty submissions and external pentest findings.
- Perform variant analysis on issues discovered through all channels.
- Research and perform security analyses on Klarna’s 3rd-party solutions.
- Develop tooling to support reconnaissance, automation, and metrics collection.
- Provide expert guidance to developers, product security teams, and SOC investigations.
- Spread awareness of offensive security practices via demos, workshops, and training.
- Assess the security of our tech stack and help mature Klarna’s security program.

**Who you are**

- Strong experience with penetration testing and technical security assessments.
- Experience identifying security issues in code, particularly within Java and Node.js.
- Experience with cloud environments, especially AWS and modern microservice design.
- Comfortable communicating findings clearly with concrete remediation recommendations.
- Skilled in Python scripting and automation.
- Self-driven, proactive, and engaged in advancing Klarna’s security culture.
- Industry-recognized certifications (e.g., OSCP, OSWE, CREST, GIAC, AWS).
- Active participation in CTFs and cybersecurity communities.

**Awesome to have**

- Collaboration within a diverse and innovative global team.
- Opportunity to work in Milan with a multicultural environment.

- Challenging scope with exposure to cutting-edge technologies.

Please include a CV in English.
