About Revolut

People deserve more from their money. More visibility, more control, and more freedom. Since 2015, Revolut has been on a mission to deliver just that. Our powerhouse of products — including spending, saving, investing, exchanging, travelling, and more — help our 70+ million customers get more from their money every day.

As we continue our lightning-fast growth, 2 things are essential to our success: our people and our culture. In recognition of our outstanding employee experience, we've been certified as a Great Place to Work™. So far, we have 13,000+ people working around the world, from our offices and remotely, to help us achieve our mission. And we're looking for more brilliant people. People who love building great products, redefining success, and turning the complexity of a chaotic world into the simplicity of a beautiful solution.

About the role

Our Technology team builds the systems and experiences that keep Revolut moving. From the infrastructure behind our innovative app to the features used by millions of people around the world, they bring sharp thinking, speed, and a focus on meaningful impact to everything they do.

We're looking for a Backend Engineer to join a team that keeps frameworks lean and focuses on what matters: clean, maintainable code, shipped fast with TDD, DDD, and continuous integration and delivery.

Our stack includes Java 17/21, GCP, Kubernetes, Grafana, Prometheus, NewRelic, PostgreSQL, Redis, Spock, jOOQ, and Flyway.

Up to shape what's next in finance? Let's get in touch.

And if you're looking for a faster way to join Revolut, apply via our One-Day Offer to complete a streamlined set of technical interviews in one day, with a final decision within 24 hours.

Next One-Day Offer interview day: 17 April.

What you'll be doing

- Enhancing and building our core platform
- Improving the developer experience by upgrading internal libraries and frameworks
- Contributing to our event store platform
- Contributing to open source internal libraries

What you'll need

- Fluency with Java
- 6+ years of experience in backend development
- Experience with distributed systems, CI/CD
- A bachelor's degree in computer science, maths, physics, or similar field
- To be a quick learner with an ambitious attitude and results-driven personality
- The ability to work well as part of a team in a fast-paced environment
- Excellent communication and organisational skills
- Fluency in English

Nice to have

- Proficiency with Kotlin or Scala
- A background in finance
- Experience in a startup or scale-up
- Hands-on experience in a product-focused environment

Compensation range

- Krakow: PLN36,000 - PLN40,000 gross monthly*
- Vilnius: €7,200 - €8,000 gross monthly*
- Poland: PLN36,000 - PLN40,000 gross monthly*
- Lithuania: €7,200 - €8,000 gross monthly*

- Other locations: Compensation will be discussed during the interview process

*Final compensation will be determined based on the candidate's qualifications, skills, and previous experience

Building a global financial super app isn't enough. Our Revoluters are a priority, and that's why in 2021 we launched our inaugural D&I Framework, designed to help us thrive and grow everyday. We're not just doing this because it's the right thing to do. We're doing it because we know that seeking out diverse talent and creating an inclusive workplace is the way to create exceptional, innovative products and services for our customers. That's why we encourage applications from people with diverse backgrounds and experiences to join this multicultural, hard-working team.

Important notice for candidates:

Job scams are on the rise. Please keep these guidelines in mind when applying for any open roles.

*• **Only apply through official Revolut channels.** We don't use any third-party services or platforms for our recruitment.*

*• **Always double-check the emails you receive.** Make sure all communications are being done through official Revolut emails, with an @revolut.com domain.*

***We won't ask for payment or personal financial information during the hiring process.** If anyone does ask you for this, it's a scam. Report it immediately.*

By submitting this application, I confirm that all the information given by me in this application for employment and any additional documents attached hereto are true to the best of my knowledge and that I have not wilfully suppressed any material fact. I confirm I have disclosed if applicable any previous employment with Revolut. I accept that if any of the information given by me in this application is in any way false or incorrect, my application may be rejected, any offer of employment may be withdrawn or my employment with Revolut may be terminated summarily or I may be dismissed. By submitting this application, I agree that my personal data will be processed in accordance with Revolut's Candidate Privacy Notice
